DETAILED ACTION

1. This office action is in response to the Appeal Brief filed on June 04, 2004. The pending claims are 1-14
2. In view of the Appeal Brief filed on June 04, 2004 and response to conference decision, PROSECUTION is hereby reopened.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Rogitz (Reg. No. 33,549) on June 29, 2005.

The application has been amended as follows:

Cancel claims 1-4 and 11-14.

Now pending claims are 5-10.

Allowable Subject Matter

4. Claims 5-10 are allowed.

Reason For Indicating Allowable Subject Matter

5. The following is a statement of reasons for the indication of allowable subject matter: Claim 5 identifies feature of computer-implemented method. The closest prior art Isip, Jr. (U.S. Patent No. 6,189,010) fails to disclose, "providing at least one heterogeneously scoped link (HSL) table in a nun-RDBMS element communicating with at least one RDBMS, at least one table having a heterogeneously scoped link column, the HSL table being associated with the heterogeneously scoped link column, and accessing the HSL table to ensure referential integrity in an RDBMS". Isip, Jr. fails to suggest the claimed limitation as mentioned above in combination with other limitations of the dependent and independent claims. The claims 5-10 are hereby allowed.
